

Press Release

Mesa, Arizona – May 1st, 2008

Agreement Reached Between JNT Consulting LLC & Western International University

JNT Consulting LLC is delighted to announce the implementation of its International Student Destination ProgramSM for the benefit of the International Students of Western International University (WIU) based in Phoenix, Arizona. The International Operations and Enrollment Teams of WIU attended the Program implementation and orientation.

This is a customized program developed, managed and provided by JNT Consulting LLC to the International Students of WIU when they arrive in the State of Arizona, USA. For a reasonable fee, the students' transition to their new school and city in Arizona will be managed with care and sensitivity to culture through experienced resources, which will facilitate their adjustment to a strange, new environment.

"JNT Consulting and Western International University will support the social and psychological needs of the arriving students. The support provided will be an essential component to building and maintaining their confidence to achieve their educational goals within Western International University and the United States of America" - said Juntee Terrenal, MA, GMS, President, JNT Consulting LLC.

"WIU is very excited about offering JNT Consulting's customized services as an added benefit for our international students. As soon as students walk off the airplane, they will be greeted by someone who specializes in working with international populations. This professional consultant will assist students with everything from settling into an apartment, to finding the local grocery store, to applying for a driving license. It is WIU's hope that by providing such personalized service to our international students it will help them not only quickly become accustomed to being a university student but to also living in the USA." -said, Hue Haslim, Director for International Operations & Registrar, Western International University.

"Recognizing that arriving in a new country and embarking on a new course of study makes for a difficult transition for our students, the services provided through this agreement should go a long way towards easing that transition" - said, Michael J. Seinden, President, Western International University.

About Western International University

WIU offers evening and weekend classes taught by professors who are management professionals and corporate executives with impressive academic credentials, many with international experience. These professors have the ability to translate theory into real world practice for students.

Western International University offers classes at its main campus, located at 9215 N Black Canyon Highway in Phoenix as well as its campuses in Scottsdale, Chandler, Peoria and Ft. Huachuca. Programs are also offered onsite at leading organizations throughout the Valley and through e-learning. The University's parent company is the Apollo Group. The Higher Learning Commission of the North Central Association of Colleges and Schools accredits WIU. For more information call +1 602 943-2311 or visit the WIU web site at www.wintu.edu
